**Latin America and the Caribbean regional overview of food security and nutrition 2021 : statistics and trends, 2021.**

Between 2019 and 2020 the prevalence of hunger in Latin America and the Caribbean increased by 2 percentage points. This is partly due to the COVID-19 pandemic, but it is not the only reason, as the region's hunger figures have been growing for six consecutive years. (FAO)

**Предметни рубрики:** продоволствена несигурност – статистика – Латинска Америка ; Кариби

**Област на знанието:** *Икономика. Икономически науки*

**Сигнатура:** ЕК

**Celikyilmaz, G. и др. Climate Finance Toolkit for Europe and Central Asia, 2021.**

This document recommends leveraging climate financing and developing transformational projects to support impactful climate action in the region. Suggested actions include enhancing access to finance through national institutions and strengthening financing accountability. (FAO)

**Предметни рубрики:** промени на климата – смекчаване – финансиране

**Сигнатура:** ЕК

**Global capacity needs assessment methodology : Integrating nutrition objectives into agricultural extension and advisory services programmes and policies, 2021.**

This publication presents a unique methodology to examine the capacity gaps in integrating nutrition-related objectives into agricultural programmes and policies, focusing on three levels: individual, organizational and enabling-environment capacity. (FAO)

**Предметни рубрики:** храни ; селскостопански храни ; консултантски услуги

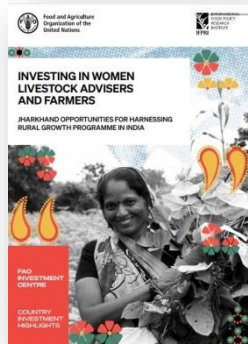

**Сигнатура:** ЕК

**Investing in farmers through public-private-producer partnerships : rural empowerment and agricultural development scaling-up initiative in Indonesia, 2021.**

This report makes an inventory of indigenous and community adaptation practices. These cases focus on various themes, including weather forecasting; early warning systems; grazing and livestock management; soil and water management; forest management; and integrated wetlands and fisheries management. (FAO)

**Предметни рубрики:** какао – отглеждане – инвестиции ; публично-частни партньорства – Индонезия

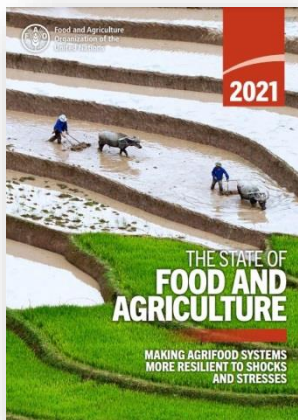

**Сигнатура:** ЕК

***Kumar, Anish и др. Investing in women livestock advisers and farmers : Jharkhand opportunities for harnessing rural growth programme in India, 2021.***

The Indian case explores investment in developing the human capital of women livestock farmers as certified master trainers and community service providers known as Ajeevika Pashu Sakhi (APS). This successful model facilitated behavioural changes in livestock farmers. (FAO)

**Предметни рубрики:** животновъдство – роля на жените ; инвестиции – човешки ресурси – Индия

**The State of Food and Agriculture 2021 : making agrifood systems more resilient to shocks and stresses, 2021.**

The State of Food and Agriculture 2021 presents country-level indicators of the resilience of agrifood systems. The indicators measure the robustness of primary production and food availability, as well as physical and economic access to food. They can thus help assess the capacity of national agrifood systems to absorb shocks and stresses, a key aspect of resilience. (FAO)

**Предметни рубрики:** селскостопански храни ; хранителни системи ; продоволствена сигурност

**Област на знанието:** *Право. Правни науки*

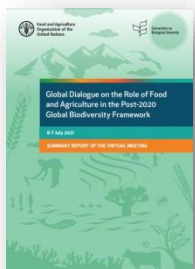

**Сигнатура:** ЕК

**Varnek, Jessica и др. Legislative and regulatory frameworks for family farming, 2021.**

By examining legislation from various geographical regions and countries of differing socioeconomic realities, this paper recommends identifying a clear legal definition of family farming and establishing an inclusive and coordinated approach that spans from local administrations to the national government. (FAO)

**Предметни рубрики:** семейни стопанства – правни проблеми ; аграрно право

**Област на знанието:** *Наука за околната среда*

**Сигнатура:** ЕК

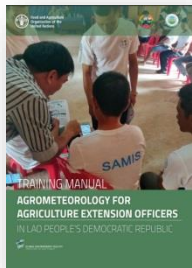

**Global Dialogue on the Role of Food and Agriculture in the Post-2020 Global Biodiversity Framework : summary report of the Virtual Meeting, 6-7 July 2021, 2021.**

The meeting was an exchange of views on initiatives and approaches to mainstream biodiversity in the food and agricultural sectors. Topics discussed included healthy diets, human rights, agrobiodiversity and food diversity. (FAO)

**Предметни рубрики:** продоволствена сигурност ; биоразнообразие – опазване

**Област на знанието:** *Метеорология. Климатология*

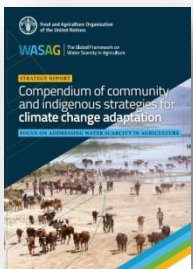

**Сигнатура:** ЕК

**Training manual agrometeorology for agriculture extension officers in the Lao People's Democratic Republic, 2021.**

Developed for the Training of Trainers (TOT), this manual seeks to aid the implementation of agrometeorology at the local level through multiple methodologies, such as climate field schools and group approaches, public announcement systems (loudspeakers), and school programmes. (FAO)

**Предметни рубрики:** агрометеорология – Лаос

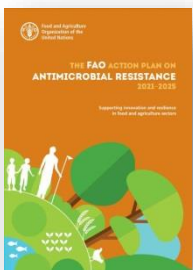

**Сигнатура:** ЕК

**Compendium of community and indigenous strategies for climate change adaptation : focus on addressing water scarcity in agriculture, 2021.**

This report makes an inventory of indigenous and community adaptation practices. These cases focus on various themes, including weather forecasting; early warning systems; grazing and livestock management; soil and water management; forest management; and integrated wetlands and fisheries management. (FAO)

**Предметни рубрики:** промени на климата – недостиг на вода ; опазване на водите ; управление на водите

**Област на знанието:** *Медицински науки*

**Сигнатура:** ЕК

## **The FAO Action Plan on Antimicrobial Resistance 2021-2025 : supporting innovation and resilience in food and agriculture sectors, 2021.**

This new action plan sets aims to a) reduce AMR prevalence and slow the emergence and spread of resistance across the food chain and for all food and agriculture sectors, and b) preserve the ability to treat infections with effective and safe antimicrobials to sustain food and agriculture production. (FAO)

**Предметни рубрики:** храни – безопасност ; антимикробна резистентност – управление – програми – ФАО

**Област на знанието:** *Агротехника*

**Сигнатура:** ЕК

## **Post-harvest loss in Mozambique : estimating maize loss in Manica and Zambezia provinces : technical note, 2021.**

This study measures losses across the maize value chain in Mozambique, in terms of both quantity and the economic cost of deterioration in quality. Causes behind the losses include bad weather, poor stock, pests and diseases. (FAO)

**Предметни рубрики:** царевица – прибиране на реколтата – загуби
