Petricks, Hajnalca и др. The gender and rural advisory services assessment tool, 2018.

This manual provides guidance on how to use the Gender and Rural Advisory Services Assessment Tool (GRAST), a tool created to enhance women's access to rural advisory services, and help close the gender gap in agriculture. (FAO)

Предметни рубрики: селско стопанство – равенство на половете – райони, селски

Област на знанието: *Икономика на селското стопанство*

Сигнатура: ЕК

Agricultural transformation centres in Africa : practical guidance to promote inclusive agro-industrial development, 2019.

This study looks into the feasibility of agricultural transformation centres in Cote d'Ivoire, United Republic of Tanzania and Zambia, identifying an optimal mix of services and infrastructures based on the needs of the selected value chains and communities. (FAO)

Предметни рубрики: аграрна политика – Африка

Сигнатура: ЕК

Dynamic development, shifting demographics and changing diets : the story of the rapidly evolving food system in Asia and the Pacific and why it is constantly on the move, 2018.

This publication reports on major trends in Asia and the Pacific, including urbanization and demands for more convenient food preparation, and an increasing diversity of retail market outlets, many of which are outside the traditional boundaries of food policy discussions. (FAO)

Предметни рубрики: храни – пазари на дребно – градове – Азия

Gender and food loss in sustainable food value chains : a guiding note, 2018.

This publication explains how gender inequalities generate poor performance that may cause produce to be lost from the food value chain. It offers practical guidance to integrate gender concerns into food loss responses, including through value-chain mapping and social risk assessment. It will help policy-makers and field practitioners manage a complex nexus. (*fao.org*)

Предметни рубрики: продоволствена сигурност – роля на жените ; равенство на половете ; джендър

Област на знанието: *Право. Правни науки*

Сигнатура: ЕК

Yeshanew, Sisay. Regulating labour and safety standards in the agriculture, forestry and fisheries sectors, 2018.

This study identifies the informality of labour regulations as one of the main challenges to be addressed, and underlines the need for better integration of the agriculture, forestry and fisheries sectors into the general labour regulations framework. (FAO)

Предметни рубрики: селско стопанство – безопасност на труд – трудово законодателство

Област на знанието: *Хидрология на повърхностните води. Хидрология на сушата*

Pesticide residues in food 2018 : Joint FAO/WHO Meeting on Pesticide Residues : Report of the Joint Meeting of the FAO Panel of Experts on Pesticide Residues in Food and the Environment and the WHO Core Assessment Group on Pesticide Residues Berlin, Germany, 18-27 September 2018, 2019.

This annual report contains information on acceptable daily intakes (ADIs), and acute reference doses (ARfDs) of pesticides for humans, and general principles for the evaluation of pesticides, including benzovindiflupyr and fluopyram. (FAO)

Предметни рубрики: храни – пестициди – остатъци

Област на знанието: *Горско стопанство*

Сигнатура: ЕК

Non-timber forest products : from restoration to income generation, 2018.

This paper shows how land restoration is being combined with economic growth in eight African, Caribbean and Pacific countries by developing value chains for non-timber forest products (commodities obtained from forests without harvesting trees). (FAO)

Предметни рубрики: недървесни горски продукти – Африка ; Карибски басейн ; Тихоокеанско крайбрежие

Сигнатура: ЕК

Sustainable management of Miombo woodlands : food security, nutrition and wood energy, 2018.

The Miombo woodland is a vast African dryland forest ecosystem threatened by a growing population, overharvesting of natural resources and climate change. This overview of the linkages between sustainable forestry and food security aims to shape future land use in the area. (fao.org)

Предметни рубрики: гори – устойчиво развитие – Африка

Област на знанието: *Организация и управление на селскостопанското производство.*

Агрономство. Растениевъдство

Integrated management of the Fall Armyworm on maize : a guide for Farmer Field Schools in Africa, 2018.

Fall armyworm is a dangerous transboundary pest that has caused significant yield losses to crops in Africa. This publication provides information on the biology and ecology of the pest and gives guidance on how to use Farmer Field Schools to fight it.

(FAO)

Предметни рубрики: царевица – борба с вредителите – Африка

Сигнатура: ЕК

Mainstreaming efficient legume seed systems in Eastern Africa : challenges, opportunities and contributions towards improved livelihoods, 2018.

This paper identifies areas of action to boost growth in the legume seed sector, from increasing total seed production and availability to improving access to high-quality seed of improved varieties and lowering the costs of seeds. (*fao.org*)

Предметни рубрики: бобови култури – семепроизводство – Източна Африка

Сигнатура: ЕК

The state of the world's biodiversity for food and agriculture, 2019.

This publication presents the first global assessment of biodiversity for food and agriculture worldwide, including plants, animals and microorganisms at genetic, species and ecosystem levels, present in and around crop, livestock, forest and aquatic production systems. (*FAO*)

Предметни рубрики: земеделие – биоразнообразие – света

Област на знанието: *Лов. Риболов. Рибно стопанство*

Сигнатура: ЕК

Aquaculture development : 9. Development of aquatic genetic resources: a framework of essential criteria, 2018.

This framework provides criteria for evaluating objectively the capacities, infrastructures and governance tools of a country regarding the sustainable use of aquatic genetic resources, including sustainability, private sector involvement, and transparency. (FAO)

Предметни рубрики: рибарство – генетични ресурси, водни – устойчиво развитие
